

Announcing partnership between Apava Solutions and Intrinsic Tech Solutions

Apava Solutions ("Apava") and Intrinsic Tech Solutions ("Intrinsic") are excited to announce a partnership to combine their expertise and strengths to better serve the rapidly-evolving needs of companies that are looking to leverage emerging technologies to increase value to their customers and operations.

Apava (www.apavasolutions.com) is based in California and as part of this partnership it will focus on customer-facing activities with companies predominantly in North America. Apava will provide local and reliable customer touchpoint through all phases of the engagement to enable customer success. Apava is led by Sandeep S Joshi, an accomplished executive with significant experience delivering customer value through engineering and innovation.

Intrinsic (www.intrinsictech.com) is based in Pune, India and within a short amount of time has executed several impactful projects to global customers. Intrinsic has broad and deep capabilities in embedded and IoT technologies. The technology span for Intrinsic covers embedded firmware, hardware, edge computing and cloud integration development across various domains like ag equipment, ag tech, automotive and off-highway vehicles, and industrial controls to name a few. Intrinsic is led by Ajit Mutalik who is a highly skilled and proven technology leader.

Apava and Intrinsic both believe in delivering value, not just technology, to their customers. Through this partnership, we look forward to becoming a significant provider of emerging technology services to companies in North America and India.
